

## Go behind the scenes to join local artists in their private studios!

St. Augustine, Florida has long been a home for artists of all stripes. They have traveled here following the trail of naturalists like William Bartram, visionary's like Henry Flagler and many others who have appreciated St. Augustine's natural coastal beauty and its long and rich history.

The past decade has witnessed an art renaissance in the Nation's Oldest City. Art galleries proliferate, and each month the city celebrates two artwalk events. Many artists now live and create here - **Art is alive in our beautiful corner of the world.** One can see it manifested in the numerous art galleries located all around our magical city, but the source of this vibrant art scene begins with the artists in their studios.

If you love art, or if you simply wish to peer behind the veil into the artist's world, then we invite you to join us while we journey to those places where the muses congregate. In this setting, you will have a rich and rewarding experience. Converse with artists about their work and hear in their own voices, why they do what they do and learn how they do it so very well.

Our studio tours are designed to be a personal, relaxing and informative way to learn about the many talented artists in the St. Augustine area. So, if you have ever wanted to bypass the crowd and see art in the making, then don't miss this wonderful and engaging studio tour! Tour prices start at \$45.
